Objective

I am a data science enthusiast currently looking for a job suitable for a beginner in this field. My abilities allow me to do basic data analysis with the use of the technologies listed in the *skills* section. Connection of philosophy and data analysis is possible, I am currently working on a research paper on Bayesian inference within my master thesis in philosophy. I am eager to gain experience and learn new things!

I am interested in a full-time job, part-time, and also in an internship.

Education

- University of Gdańsk 2018-2021
Philosophy, Bachelor's degree
- WSB Gdańsk 2021-2022
